SYLLABUS

1. Data about the program

11 Data about the program	
1.1 Higher education	Babeş-Bolyai University
institution	
1.2 Faculty	Faculty of Psychology and Educational Sciences
1.3 Department	Department of Psychology
1.4 Field of study	Psychology
1.5 Study cycle	Master
1.6 Study program /	Master's Degree in Human Resource Psychology and Organizational
Qualification	Health

2. Course information

2.1 Name of the co	urse	Organizat	ional	Diagnosis (PME1443)			
2.2 The holder of the	ne co	ourse activities		of. Univ. dr. Petru Cur	seu		
2.3 The holder of the	ie se	minar activities	Pr	Prof. Univ. dr. Petru Curseu			
2.4 Year of study	II	2.5 Semester	3	2.6. Type of	Е,	2.7 Course regime	DS
				evaluation	VP		

3. Estimated total time (hours per semester of teaching activities)

3.1 Number of hours per week	3	Of which:	3.2 course	2	3.3 seminar/laboratory	1	
3.4 Total hours in the curriculum 42 Of which: 3.5 course 28 3.6 seminar/laboratory							
Distribution of estimated time:							
Studying textbook, course support, bibliography, and notes							
Additional documentation in the library, on specialized electronic platforms and in the field						25	
Preparation of seminars / laboratories, papers, portfolios, and essays						28	
Tutorship						10	
Evaluations						5	
Other activities: research activities						8	
3.7 Total hours of individual study 108							
3.8 Total hours per semester 150							

6

4. Preconditions (where applicable)

3.9 Number of ECTS credits

4.1 curriculum	
4.2 competencies	

5. Conditions (where applicable)

5.1 Course conduct	 classroom with approx. 60 seats, laptop, video projector, photocopied materials, materials on CD, sound system
5.2 Conducting the seminar	 seminar room with approx. 60 seats, laptop, video projector, photocopied materials, materials on CD, sound system, flipchart sheets, markers

6. Competențele specifice acumulate

	 The student is able to identify the appropriate diagnosis and evaluation frameworks in order to explain and evaluate a set of individual, group, organizational, and situational characteristics (1.1.). The student is able to identify and use the appropriate quantitative and/or qualitative techniques,
	 The student is able to identify and use the appropriate quantitative and/or quantative techniques, methods, and instruments in order to explain and evaluate a set of individual, group, organizational, and situational characteristics. (1.2.).
Profess ional Co	• The student is able to develop evidence-based methods and instruments drawing upon the scientific literature (theories, frameworks, empirical data) in order to identify, measure, and evaluate a set of individual, group, organizational, and situational characteristics (1.3.).
mp ete nci	• The student is able to define the complex situation or problems affecting a group, department, or organization based on the data collected from the organization (1.4.).
es	• The student knows the structure and distribution of multiple organizational levels (individual, group, organizational, and multi-level) and the interacting dynamics between multiple organizational levels that inform the proposal and implementation of specific interventions in order to increase organizational performance and innovation (3.1.).
	• The student is able to differentiate between and adopt perspectives, approaches, and theories or organizational complexity in order to inform actions and decisions that support organizational performance (3.3.).
T r	• The student is able to use a variety of types and channels of communication in order to disseminate information in different contexts (1.3.).
a n s	• The student is able to elaborate and give a presentation in regards to their work activity while using the appropriate language in order to convey information in a clear and precise manner to the targeted audience (1.4.).
v e	• The student is able to identify the elements of a certain situation or complex problem within an organization, and the relation between them in order to have a better understanding (2.3.).
r s	• The student is able to facilitate the negotiation between stakeholders with complex interests, in order to achieve organizational objectives and maintain professional relations (3.3.).
a l	• The student is able to implement networking methods and tools in order to initiate efficient work collaborations (3.5.).
с о	• The student is able to apply the action plan needed in order to develop the professional competencies required to perform in the dynamics of the external and internal organizational environment (6.4.).

9. Corroborating the contents of the discipline with the expectations of the representatives of the epistemic community, professional associations and representative employers in the field related to the program

10. Evaluation

Activity type	10.1 Evaluation criteria	10.2 evaluation methods	10.3 Weight in the final grade
10.4 Course	Correctness and completeness of knowledge The degree of assimilation of the specialized language Logical coherence		50%
10.5 Seminar/laboratory	The ability to apply the concepts and theoretical models studied in the study of human behavior in a social context	Projects	30%
	Correctness and completeness of knowledge The degree of assimilation of the specialized language Logical coherence	Applied activities carried out during the semester - continuous evaluation	20%

The ability to apply the concepts and theoretical models studied in the diagnosis of the organization's functioning problems

- Correctness and completeness of knowledge
- The degree of assimilation of the specialized language
- The ability to formulate research ideas
- Logical coherence

The conditions for passing the exam are:

- A score of minimum 50% for the exam (2.5 points out of 5)

- A combined score for all the evaluation methods (exam, projects, applied activities) of minimum 4.5 points
